Portfolio: sandeepmishraofficial.github.io

SUMMARY

Data Analyst with around 1 year of hands-on experience working with data in GIS projects. Skilled in Python, SQL, and Excel for data cleaning, analysis, and visualization. Experienced in handling and validating large datasets, ensuring data accuracy, and generating meaningful insights. Familiar with tools like MySQL and Excel dashboards. Eager to build a career in data analysis and contribute to data-driven business decisions.

TECHNICAL SKILLS

Programming Languages: Python, SQL

Libraries: NumPy, Pandas, Matplotlib

Database: MySQL

Data Analysis & Visualization Tools: Power BI, Microsoft Excel (Pivot Tables, VLOOKUP, Charts, Dashboard)

Tools & Platforms: Git, GitHub, Jupyter Notebook, VS Code

Core Skills: Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), Data Visualization, Dashboard Development, Data Validation, Statistical Analysis, Problem Solving

PROJECT EXPERIENCE

Project 1: IPL Data Analysis Dashboard (2008-2025) | GitHub | [Live](#)

Technologies Used: Excel, Power BI, DAX

- Cleaned and prepared IPL data for analysis and reporting
- Built an interactive Power BI dashboard to explore team and player performance
- Created DAX measures to calculate winner, runner-up, Orange Cap, Purple Cap, and match statistics
- Added filters, slicers, team logos, and player images for easy dashboard navigation
- Analyzed season trends, runs, wickets, and team performance to generate useful insights

Project 2: Netflix Data Analysis | GitHub

Technologies: Python, SQL, Power BI

- Cleaned and preprocessed dataset using Python (Pandas, NumPy)
- Performed data extraction and analysis using SQL queries (JOIN, GROUP BY, Aggregations)
- Conducted exploratory data analysis (EDA) to identify trends in movies and TV shows
- Visualized insights using Matplotlib and Power BI dashboards
- Analyzed genre popularity, release year trends, and country-wise content distribution
- Created interactive Power BI reports to present insights clearly

EDUCATION

Bachelor of Computer Applications (BCA) | Lucknow, UP

Maharishi University of Information Technology

August 2022 – June 2025

Coursework: Data Structures and Algorithms, Software Engineering, Operating System, Database Management Systems, Computer Networks.

EXPERIENCE

GIS Trainee — MapmyIndia (New Delhi)

May 2025-Present

- Analyzed and updated geospatial data to improve map accuracy and location intelligence
- Performed data cleaning, validation, and quality checks on large location-based datasets
- Worked with GeoJSON and Shapefiles for data processing and structured data handling
- Identified data inconsistencies and improved data quality using analytical approach
- Collaborated with team to manage and enhance geospatial datasets for better insights

CERTIFICATES

- Python (Basic) Certificate – **HackerRank**
- MySQL – **Spoken Tutorial**

Key Strengths

- Strong analytical thinking with ability to interpret data and generate actionable insights
- Proficient in data cleaning, analysis, and handling datasets with high accuracy
- Skilled in creating dashboards and visualizations to communicate insights clearly
- Good problem-solving skills with a data-driven approach
